Maths

During Term 3, the Year 3/4 students will develop their mathematical skills in the following areas:

- Understanding numbers, including place value and counting.
- Using strategies for multiplication and division, such as equal groups and arrays.
- Exploring probability and statistics.
- Identifying angles.

Reading

During Term 3, the Year 3/4 students will develop their reading skills in the following areas:

- Expanding vocabulary by learning about prefixes, suffixes and base words.
- Understanding and using language to identify facts and opinions.
- Summarising texts and making predictions.
- Answering questions to demonstrate understanding of texts.

Writing

During Term 3, the Year 3/4 students will develop their writing skills in the following areas:

- Writing sequential explanations.
- Further developing knowledge and use of grammar.
- Writing a variety of sentence types.
- Rereading and editing writing.
- Publishing by hand and using the laptops.

Investigations - I am a Geologist

- Observing the properties of rocks.
- Explaining how weather affects the land, air, water and living things.
- Identifying ways in which human activities cause changes to the Earth.
- Examining how natural disasters change the Earth's surface and how humans respond.

Administration & Reminders
