

Welcome back to Term 3 everyone! I hope you all had a relaxing break and stayed warm! It has certainly been very cold over the last few weeks. I think there might be a few more cold days to come as well!

A reminder that the gates do not open in the morning until 8:30am and we do not want students waiting out in the street in the cold. To ensure the safety of our students, please do not drop off children until the gates are

open.

You may have noticed we have three lovely new **grandstands** down next to the oval. There is now one in each House Team colour. The students are enjoying them at break times, but it will be very handy for sports groups and outdoor learning as well. We look forward to making good use of them for House Spirit activities.

This term's Investigations Topic is '**I Am A Chemist**'. This topic is about the different properties of a variety of matter and the ways they interact and change when they are combined, heated, or cooled.

Each learning community is using a different perspective to build their understandings and knowledge. The

Foundation students will be using their senses to interact with many different forms of matter; the 1/2s will be exploring matter through artwork; the 3/4s will be exploring matter through cooking; and the 5/6s will be classifying matter and looking at how chemistry can help the world.

Have a great weekend!

Remember, every day counts!

Jo Money
Principal
