

Yesterday **NAPLAN** started for Years 3 and 5. The students did Writing yesterday and today completed the Reading test. Next Wednesday and Thursday they will be completing the Maths and Spelling, Grammar and Punctuation test. Everyone has worked really well and put in their best effort. That is all we ask them all to do. If your child seems anxious about

the testing just reassure them that it is just one small part of our assessment and just lets the teachers know any areas of learning they need to help students with as well as giving us some goals for the future.

As you would be aware, there are a number of ways to support the school, and we would love to have you join us on one of our committees.

We are still looking for people to come and join the Education Sub-committee that meets on Fridays before assembly at 2:20pm. This committee covers a range of areas including contributing ideas for family involvement, helping to build the resources of the learning communities through processing equipment and helping to review policies and offer suggestions.

There is also the Healthy Eating Team that organises and prepares lunches for students a few times a term. This would mean being available on Friday mornings to work with a team in the canteen.

*Remember, every day counts!
Have a great weekend!*

**Jo Money
Principal**

Enrol now at glenroyoshc@macseye.vic.edu.au

Before and After School care – don't forget this is available in conjunction with Corpus Christi PS. As it is on their site, we have a roster of staff collecting and dropping off students daily. It is operated through MACSEYE and bookings can be made using the QR code attached.

KINDER NEWS

Last week, our kinder has been exploring a range of experiences. We visited the schoolground to explore the nature area as part of introducing children to the bush kinder concept. To support this, we have been utilising the school's nature area as our bush kinder space. The children explored nature, using their senses to observe and interact with their surroundings. They enthusiastically engaged in digging, searching for bugs, and discovering hidden treasures in the natural environment.
